Claim 1 of the original patent also does not include the limitation that the first ply of the tissue paper product is a conventional ply and that the second ply has a texture value of greater than or equal to 4.0 mils. These specific embodiments are now included in claim 58 (and claims 59 to 71 that depend therefrom). Claim 1 of the original also does not include the limitation that the second ply has a texture value which is at least about 2.0 times the texture value of the first ply. These specific embodiments are now included in claim 72 (and claims 73 to 79 that depend therefrom).
